

TAKE ACTION

HOW CAN I EMAIL MY GOVERNMENT REPRESENTATIVES?

The Endocrine Society encourages its members to contact their Members of Congress or the European Parliament to advocate for endocrine research through increased NIH funding, better physician payment, proposed legislation that affects your research and practice, and a host of other topics. Emailing a policymaker really can make a difference! Lawmakers read all the emails they receive and constantly monitor social media to learn what their constituents care about.

In order to easily navigate our online advocacy system, please follow the below steps and take action today!

Should you encounter any issues, please do not hesitate to reach out to Grace Kranstover at gkranstover@endocrine.org.

STEP 1:

To get started, visit the Endocrine Society's Take Action page at endocrine.org/takeaction and select the campaign of your choosing.

Take Action

Take action to help us support endocrinology research, care, professionals, and patients!

We rely on your voice to advocate for our **policy priorities**. Take action today to show our strength as a community that cares about endocrinology.

United States

Support Reauthorization for the Special Diabetes Program >>

Please join the Endocrine Society in ensuring Congress continues the Special Diabetes Program (SDP). The lives of over 114 million Americans living with or at-risk for developing diabetes are being changed through SDP; however, funding will expire on September 30, if Congress fails to act!

Contact your members of Congress today and urge them to reauthorize SDP!

STEP 2:

Fill out your personal contact information (not your institution address) to contact your correct government representative and then click “Next.”

If you work at a state university and are not sure if you can take action, please check with your institution’s federal relations office.

Pro Tip: Select the FastAction box to ensure that our system will remember your contact information in the future as long as you are using the same device!

SUPPORT REAUTHORIZATION FOR THE SPECIAL DIABETES PROGRAM

Please join the Endocrine Society in ensuring Congress continues the Special Diabetes Program (SDP). The lives of over 114 million Americans living with or at-risk for developing diabetes are being changed through SDP, however, funding will expire on September 30, if Congress fails to act.

SDP is comprised of two programs – the Special Diabetes Program for Type 1 Diabetes and the Special Diabetes Program for Indians. Congress created these programs in 1997 to advance research for type 1 diabetes at the National Institute of Diabetes and Digestive and Kidney Disorders (NIDDK) and to provide treatment and education programs for type 2 diabetes among American Indians and Alaska Natives (AI/AN).

Together, these programs have proven to be a critical pathway to preventing and treating diabetes and its complications.

US Representative (D)

Support Reauthorization of the Special Diabetes Program

Dear [elected official],

Personalize your message

As a constituent and someone who cares about diabetes, I urge you to support the reauthorization of the Special Diabetes Program (SDP). The lives of over 114 million Americans living with or at-risk for developing diabetes are being changed through this critical program; however, funding for SDP will expire on September 30, if Congress fails to act.

SDP is comprised of two programs – the Special Diabetes Program for Type 1 Diabetes and the Special Diabetes Program for Indians. Congress created these programs in 1997 to advance research for type 1 diabetes and to address the disproportionate burden of type 2 diabetes among American Indians and Alaska Natives (AI/AN).

Through this funding, the Special Diabetes Program for Type 1 Diabetes, which is administered by the National Institute of

Sincerely,
Ms. Grace Kranstover

STEP 4:

Congratulations! You have taken action and contacted your government representative on behalf of the Endocrine Society!

After sending your letter, you will be shown a thank you message like the one shown here.

We encourage our members to share our campaigns on Facebook and Twitter and urge others to also take action using the “Share” and “Tweet” buttons as well.
